Endocrine Disruptors 2012

Organised by

Smithers

Munich, Germany
14-15 February 2012
Endocrine Disruptors 2012

Contents

Session 1: Regulatory Aspects

Paper 1  EU's approach to the regulation of endocrine disruptors
Giles Chappell, McKenna Long & Aldridge LLP, Belgium

Paper 2  OECD activities on endocrine disruptors testing and assessment
Nathalie Delrue, OECD, France

Session 2: Test Strategies and Methods

Paper 3  The evaluation of control performance in the amphibian metamorphosis assay (OPPTS 890.1100)
and in the fish short-term reproduction assay (OPPTS 890.1350) with emphasis on weight of the
evidence evaluation of the endpoints for potential interaction with the androgen, estrogen and
thyroid hormone systems
Ronald C Biever & Mark A Cafarella, Smithers Viscient, USA

Paper 4  Endocrine Disruptors - Guidance to clients on their testing strategies: difficulties and constraints
Mike Neale, Matthew Kane & Thorsten Behsen, LKC Switzerland Ltd, Switzerland

Paper 5  Evaluation and lessons learned in the in vitro tier 1 endocrine disruption screening assays
Dr Colleen Toole, DP Blakeman, S McColley, C Haines, B. Wallace, H Wagner, J Willoughby P Wilga &
JM McKim Jr, CeeTox, USA

Paper 6  Lack of androgenicity and estrogenicity of the three monomers used in Eastman's co-polyester
plastin Tritan ™
Dr James Deyo, Eastman Chemical Company, USA

Paper 7  Endocrine disruption in aquatic environment from mechanistic to predictive approach
Dr Stéphanie Nadzialek, Albemarle Europe Sprl; Prof Patrick Kestemont & Sophie Depiereux, FUNDP
Namur, Belgium

Paper 8  Pharmacophore models for predicting endocrine disrupting effects of xenobiotics: concept and
case studies on steroid modulating enzymes
Dr Daniela Schuster, Institute of Pharmacy/Pharmaceutical Chemistry, Innsbruck, Austria

Paper 9  Bioassays for the identification of xenobiotics interfering with steroid modulating enzymes:
disruption of key regulators of endocrine functions
Prof Alex Odermatt, Swiss Center for Applied Human Toxicology and Division of Molecular and Systems
Toxicology, University of Basel, Switzerland. Presented by: Dr Daniela Schuster, Institute of
Pharmacy/Pharmaceutical Chemistry, Innsbruck, Austria

Paper 10 Brain aromatase (CYP19A1B) is a highly sensitive gene to estrogens and xeno-estrogens
François Brion & Benjamin Piccini, INERIS, France, Yann Le Page & Olivier Kah, Taiwan Institute of
Molecular Biology Taiwan, Sok-Keng Tong & Bon-Chu Chung, University of Rennes, France
Session 3: Mode of Action/New Effects

Paper 11  Mechanisms of endocrine disruption in humans  
Prof Tamara Galloway, David Melzer & Lorna Harries, University of Exeter, UK  
Paper unavailable at time of print

Paper 12  Role of endocrine disruptor chemicals on the tissue levels of AhR and sex steroid receptors in premenopausal breast cancer patients: comparison with benign female tumours  
Dr Sepideh Arbabi Bidgoli, Islamic Azad University, Pharmaceutical Sciences Branch, Tehran - Iran

Paper 13  PPAR-mediated metabolic disruption by phthalates  
Béatrice Desvergne, University of Lausanne, Switzerland

Paper 14  Epigenetic effects of endocrine-disrupting compounds  
Dr Ariane Paoloni-Giacobino, Swiss Center for Applied Human Toxicology, Switzerland

Session 4: Case Studies

Paper 15  Epidemiological studies of Bisphenol A in adults  
Prof David Melzer & Prof Tamara Galloway, University of Exeter, UK  
Paper unavailable at time of print

Paper 16  Effects of perinatal exposure to bisphenol A on the mammary gland  
Prof Cathrin Brisken, et al, National Center of Competence for Molecular Oncology, Switzerland

Paper 17  Polycystic Ovary Syndrome (PCOS) and Bisphenol A (BPA): experimental and clinical data  
Dr Evanthia Diamanti-Kandarakis, Medical School University of Athens, Greece

Session 5: Evaluation of Data including Risk Assessment

Paper 18  Tiered approach for exposure assessment within an integrated risk assessment framework of endocrine disruptors in the Uruguay River  
Diana Míguez, Technological Laboratory of Uruguay, Uruguay; Elise Cartmell, Ana Soares & Simon Pollard, Cranfield University, United Kingdom

Paper 19  National study on sperm quality in Switzerland  
J Vargas, R Parapanov, A Senn & M Germond, FABER Foundation, Lausanne, Switzerland; J Mendiola, University of Murcia, Spain; E Stettler, Swiss Army Medical Services, Switzerland
